

Another successful Peppermint implementation at Blake Morgan

iTrain worked alongside Blake Morgan's Training Team to deliver training across multiple sites

Project Overview

iTrain worked with Blake Morgan, a top Southern-based law firm, to help them implement Peppermint Technology's innovative cloud-based software.

We worked alongside Blake Morgan's excellent Training Team delivering classroom-based training and floor-walking support to over 600 staff across multiple sites.

The Peppermint system was well received by users and the feedback received has been extremely positive.

About Blake Morgan

Blake Morgan is a large full-service commercial law firm with offices in Cardiff, London, Oxford, Portsmouth, Reading and Southampton.

"iTrain were incredibly helpful in assisting our existing IT Training team while we were delivering our Peppermint training courses, which covered approximately 600+ people over multiple offices during a very short window. They were able to quickly learn our training plans with ease and deliver what can only be described as first-class training. Their training style, sense of humour and professionalism matched our existing team's, which resulted in a fluid and dynamic series of training events and post go live floorwalking."
